

Vascular Intervention // **Coronary**  
Dual Lumen Microcatheter

# NHancer Rx

Designed to advance dual guide wire procedures

Two distal exit ports for enhanced access of side branches

Braid re-enforced shaft for improved pushability

Soft, tapered tip with distal end visibility

# NHancer Rx

## Dual Lumen Microcatheter

Indicated to support a guide wire during access of vasculature.\*

### Advancing guide wire procedure

The NHancer Rx dual lumen microcatheter has one over the wire (OTW) lumen and one rapid exchange (Rx) delivery lumen. The two separate lumens are designed to advance dual guide wire procedures by providing two distal exit ports for enhanced access of side branches. The reinforced shaft and removable stylet facilitates pushability and the soft, tapered tip is designed to be atraumatic.

Technical Data	Dual lumen microcatheter	
Distal profile	Oval low profile design 2.3F x 3.3F	
Lesion entry profile	1.5F	
Guide wire compatibility OTW lumen	0.014"	
Guide wire compatibility Rx lumen	0.014"	
Distal shaft coating	Hydrophilic	
Exit markers	95 cm and 105 cm	
Tip design	Soft tapered tip	

Ordering Information	Ordering number	IMDS article number	Guiding catheter compatibility	Usable length
	451669	NRX1413518	5F	135 cm
