Value from Innovation

ARIETTA 50

THE NEXT LEVEL
IN USABILITY

the next level in ultrasound imaging

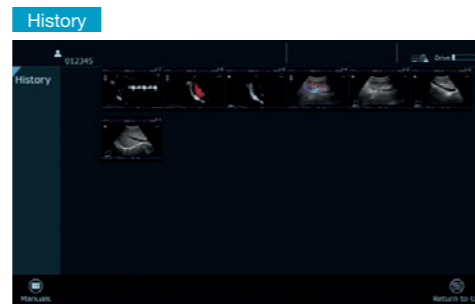

This entry model of the ARIETTA series provides easy operation for beginners and experts. Its large 21.5 inch monitor and intuitive, user-friendly operability will bring you to the “Next Level”.

Simplified Operating Console
Clean keyboard design, offering an easy and pleasant user experience.

User-friendly Interface
The simple user interface features intuitive navigation and system operability.

Easy retrieval of patient settings
The system offers an easy retrieval of previously applied patient settings, invaluable for follow-up comparisons and repetitive examinations.

Silky Image Processing (SIP)
This adaptive image filter has further evolved to reduce speckles and boost edge enhancement, generating clearer images for easier interpretation.

Auto Optimizer
Images can be adjusted with a single keystroke: B-mode gain, baseline position and velocity range of the Doppler waveform are all optimized.

Carefree Workflow

The Next Level in Usability

Clear Imaging

21.5 inch = 54.61 cm Widescreen Monitor
This high contrast LCD monitor with a wide field of view displays images with high sensitivity and resolution, reducing patient-dependent image variability.

Palm Rest

Easy-to-use Touch Screen Panel
The touch screen panel is mounted at a comfortable and convenient angle. The screen's layout is customizable by clinical application, allowing for intuitive operation.

Adjustable Panel Height/Rotation
The operating console allows for easy height adjustment and rotation to boost a comfortable user experience.

Gel Warmer
The gel warmer is conveniently inclined for easy access.

Clean Application

Battery
The battery operation allows the system to be moved to a different location without powering it down, so that operation can be resumed immediately.
